**Participants:**

- 🎤 **Sue Thotz**, Senior Program Manager, Common Sense Education
- 🎤 **Jamie Nunez, Bay Area Regional Manager**, Common Sense Media
- 🎤 **Justyna Pokojnska**, Digital Economy Lab, Uniwersytet Warszawski
- 🎤 **Karol Górnowicz**, CEO at Skriware

**Introduction:** Synthetic presentation of the main issues concerning level of digital competencies among teachers and students in Polish and American schools - summary of the results of research.

**Discussion** on 4 selected topics:

1. What is the level of digital competencies among teachers in both our countries?
2. Does the education system in Poland and the USA respond well to the needs of the digital age?
3. What is the role of businesses in building and developing digital competences?
4. What action should we take to prepare young people for work in Industry 4.0?

### LESSONS LEARNT BY K12 SCHOOLS IN TIMES OF COVID-19
